### How to Use This Guide
Most of our recommendations, including all eco-certifications, aren’t on this guide. Be sure to check out SeafoodWatch.org for the full list.

**Best Choices**
Buy first; they’re well managed and caught or farmed responsibly.

**Good Alternatives**
Buy, but be aware there are concerns with how they’re caught, farmed or managed.

**Avoid**
Take a pass on these for now; they’re overfished, lack strong management or are caught or farmed in ways that harm other marine life or the environment.
