How to Use This Guide

Many seafood items appear in more than one column. Please be sure to check them all—beginning with Best Choices.

Best Choices

Buy first; they're well managed and caught or farmed responsibly.

Good Alternatives

Buy, but be aware there are concerns with how they're caught, farmed or managed.

Avoid

Take a pass on these for now; they're overfished, lack strong management or are caught or farmed in ways that harm other marine life or the environment.

To use your guide: 1. Cut along outer black line
 2. Fold on grey lines
