

Monterey Bay Aquarium Seafood Watch®

Fisheries and Aquaculture Standards Review

2019-2020 Work Program and Timeline

Standard	Status	Description
Seafood Watch Standard for Fisheries	Current version F3.2 (December 20 2016) , implemented for assessments begun after Jan 1 2017. The 2019-2020 review cycle will consider all public and expert working group input received since the existing Standard was published.	The purpose of the Standard for Fisheries is to operationalize the qualities that fisheries must possess to be considered sustainable. These qualities are encapsulated in the objectives for sustainable fisheries, as defined in the Public Summary .
Seafood Watch Standard for Aquaculture	Current version F3.2 (October 5 2016) , implemented for assessments begun after Jan 1 2017. The 2019-2020 review cycle will consider all public and expert working group input received since the existing Standard was published.	The purpose of the Standard for Aquaculture is to operationalize the qualities that aquaculture operations must possess to be considered sustainable. These qualities are encapsulated in the objectives for sustainable aquaculture, as defined in the Public Summary .
